Gas Industry Standards Board
Request for Initiation of a GISB Standard for Electronic Business Transactions
or
Enhancement of an Existing GISB Standard for Electronic Business Transactions
Date of Request: March 17, 2000

R00004

1. Submitting Entity & Address:
   Tennessee Gas Pipeline Company
   1001 Louisiana Street
   Houston, TX 77002

2. Contact Person, Phone #, Fax#, Electronic Mailing Address:
   Name: Mark Gracey Dena Copeland
   Title: Manager, Business Processes Senior Analyst, Business Processes
   Phone: (713) 420-2466 (713) 420-4502
   Fax: (713) 420-3294 (713) 420-3294
   E-mail: GraceyM@EPEnergy.com CopelandD@EPEnergy.com

3. Description of Proposed Standard or Enhancement:
   Tennessee Gas Pipeline requests the addition of a new data element “Limit Type” (“Limit Type”) to the Pre-determined Allocation (2.4.1).

4. Use of Proposed Standard of Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):
   This data element provides increased flexibility for the Limit Value data element. The PDA Preparer can 1) leave the Limit Type data element unpopulated and provide a quantity for the Limit Value data element, or 2) provide a code value for the Limit Type data element and the associated Limit Value data element will be calculated/generated by the Transportation Service Provider’s allocation system based upon contractual and/or other data contained within the Transportation Service Provider’s system.

5. Description of Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

6. Estimate of Incremental Specific Costs to Implement Proposed Standard or Enhancement:
   None

7. Description of Any Specific Legal or Other Considerations:
   None
Gas Industry Standards Board
Request for Initiation of a GISB Standard for Electronic Business Transactions or
Enhancement of an Existing GISB Standard for Electronic Business Transactions
Date of Request: March 17, 2000

8. If This Proposed Standard or Enhancement Is Not Tested Yet, List Trading Partners Willing to Test Standards or Enhancement (Corporation and contacts):
   None at this time

9. If This Proposed Standard or Enhancement Is in Use, Who are the Trading Partners:
The following Tennessee Gas Pipeline customers are currently using the special options of the swing allocation method, that provide system generated Limit Values based on a specified Limit Type:
   - City of Olive Hill
   - City of Savannah
   - City of Springfield
   - Western Kentucky Gas Company

10. Attachments (such as: further detailed proposals, transaction data descriptions, information flows, implementation guides, business process descriptions, examples of ASC ANSI X12 mapped transactions):
