3. Description of Proposed Standard or Enhancement:

Modify the language of 4.3.18, which states:

Transportation Service Providers should provide and keep current to the Central Address Repository the addresses (URLs) for the following in a specified format and communication method(s):

    Informational Postings
    Affiliated Marketer Info.
    Capacity
    Index of Customers
    Notices
    Tariff
    Downloads
    Site Map

This specification and any changes to it should be subject to GISB approval.

to be consistent with standard 4.3.65, which states:

The Transportation Service Provider's Customer Activities Web Site should include the name, nickname, or name abbreviation of the parent company and/or Transportation Service Provider so that it will appear first in the browser title bar.

so that in it's modified form (in italics), 4.3.18 would read:

Transportation Service Providers **or their parent company** should provide and keep current to the Central Address Repository the addresses (URLs) for the following in a specified format and communication method(s):

      Informational Postings
      Affiliated Marketer Info.
      Capacity
      Index of Customers
      Notices
      Tariff
      Downloads
      Site Map

If the parent company's URL is provided for the Central Address Repository, the parent company's home page should include a menu containing a list of all TSPs owned and/or operated by the parent company.
This specification and any changes to it should be subject to GISB approval.

4. Use of Proposed Standard or Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):

The modified standard would provide a Central Address Repository with naming that is consistent with the names displayed in the browser title bar when actually visiting a TSP site.

5. Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

The modified standard would provide a Central Address Repository with naming that is consistent with the names displayed in the browser title bar when actually visiting a TSP site.
