locumentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols): The Energy Reliability Council of Texas (ERCOT) desires to replace an existing FTP process with GISB EDM. However, the current version of GISB EDM does not include formal support for XML within the input format HTTP request data element.
The addition of "XML" as a recognized, standard identifier within the input-format request data element will permit ERCOT to replace FTP with GISB EDM.
Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement: The ability to transport XML documents using GISB EDM
Estimate of Incremental Specific Costs to Implement Proposed Standard or Enhancement: Minimal estimated costs to software vendors and users
