### **SUDNAESB COPYRIGHT POLICY AND COMPANIES WITH ACCESS TO NAESB STANDARDS UNDER THE COPYRIGHT POLICY**

**AS OF FEBRUARY 29, 2024**

#### **INTRODUCTION:**

The NAESB standards are copyrighted and protected by federal copyright law. All NAESB members have access to the standards via the member-only portion of the NAESB web site. In accessing the standards they do so for their specific company use. NAESB members and nonmembers are not permitted to reproduce and distribute to third parties, including affiliates, partners or other corporate entities under the same corporate umbrella.

There are several other ways that companies can gain access to NAESB standards; however, the same copyright limitations remain in effect so that persons likewise are not permitted to reproduce and distribute to third parties, including affiliates, partners or other corporate entities under the same corporate umbrella.

As examples of the preceding paragraph, a company that attends a NAESB class may have access to those standards addressed in the class. A company that purchases a version of the standards has access to that version via CD or USB. Several government agencies have requested and received copies of the standards with waivers so that they and their task forces may evaluate the standards for use. The members of the task force are only to use the standards for evaluation purposes, and the same restrictions as noted above apply. As task force members determine to use the standards for implementation in their own companies and with trading partners, they must obtain the standards separately – either through purchasing, access to the NAESB web site if they are NAESB members, or attendance at classes.

#### **NAESB COPYRIGHT POLICY:**

*All NAESB Standards are protected under United States Copyright laws. The same copyright protection applies to much of the other materials published by NAESB.*

*Members of NAESB and persons purchasing NAESB Standards are permitted to make reasonable use of these materials internally for certain limited purposes. However, they may not transfer them outside their own companies nor may they transfer them to affiliates or other third parties without written authorization from the NAESB office.*

*Duplication of NAESB Standards is not only an infringement of NAESB's copyright but it increases the risk that the duplicated materials may not contain all of the Standards and the like, and may thus be incomplete. Persons in possession of incorrect, incomplete and outdated materials may be under the misconception that they are observing NAESB's Standards even when they are not. This serves no one and only undermines NAESB's purpose to present Standards to support*

Page 2 of 159

*the marketplace. Copyright infringement also undermines NAESB's ability to maintain the economic integrity its members expect so that it may continue its work in the future.*

*Members and purchasers of NAESB Standards and other NAESB copyrighted materials are cautioned to review their policies regarding use and distribution of our materials to assure that they are not intentionally or inadvertently infringing NAESB's copyright and coming into conflict with federal law.*

### **REASON FOR ACCESS TO STANDARDS:**

NAESB standards are developed by the industry to improve the transparency and transactional efficiency of the energy markets. From NAESB's perspective, all standards are voluntary.

The retail standards are available to support customer choice programs and other aspects of retail markets not related to customer choice programs. Some of the retail technical standards have been adopted by the states and are mandatory. The majority of the retail standards are voluntary. Access to the standards is necessary for implementation and ultimately, to benefit from the efficiency they introduce.

The Wholesale Gas Standards (WGQ Version 4.0) and the Wholesale Electric Standards (WEQ Version 003.3) with a few exceptions have been incorporated by reference by the Federal Energy Regulatory Commission into federal regulations and are mandatory for federal jurisdictional entities. The Commission, in adopting the standards, sets requirements for compliance and penalties for non-compliance. NAESB does not monitor for compliance nor does it set standards that address penalties for non-compliance. Access to the standards is necessary for implementation and ultimately, to benefit from the efficiency they introduce. Access is also needed to ensure compliance. The Wholesale Electric Standards (WEQ Version 003.3) were published on March 30, 2020 and were filed with the Federal Energy Regulatory Commission (FERC) on March 30, 2020. On May 20, 2021, the Federal Energy Regulatory Commission issued FERC Order No. 676-J, *Standards for Business Practices and Communication Protocols for Public Utilities* in Docket Nos. RM05-5-029 and RM05-5-030. The Wholesale Gas Standards (WGQ Version 3.2) were published on August 15, 2020 and filed with the Federal Energy Regulatory Commission on August 17, 2020. On July 15, 2021, the Federal Energy Regulatory Commission issued FERC Order No. 587-Z, *Standards for Business Practices of Interstate Natural Gas Pipelines* in Docket No. RM96-1-042(WGQ Version 3.2).

Standards access is provided 1) through membership in NAESB, 2) by purchase of annual web site access, 3) via attendance at NAESB courses for specific standards, 4) through purchase at a nominal price, or 5) by receipt of a special license. In each instance, access is limited and non-transferable.

### WARRANTY DISCLAIMER AND COPYRIGHT WARNING:

Below is the warranty disclaimer and copyright warning for each of the most recent versions of the NAESB standards.

#### Wholesale Electric Quadrant Version 004 Standards:

*The North American Energy Standards Board ("NAESB") disclaims and excludes, and any user of the NAESB standard acknowledges and agrees to NAESB's disclaimer of, any and all warranties, conditions or representations, express or implied, oral or written, with respect to the standard or any part thereof, including any and all implied warranties or conditions of title, non-infringement, merchantability, or fitness or suitability for any particular purpose (whether or not NAESB knows, has reason to know, has been advised, or is otherwise in fact aware of any such purpose), whether alleged to arise by law, by reason of custom or usage in the trade, or by course of dealing. Each user of the standard also agrees that under no circumstances will NAESB be liable for any special, indirect, incidental, exemplary, punitive or consequential damages arising out of any use of, or errors or omissions in, the standard.*

The North American Energy Standards Board (NAESB), Wholesale Electric Quadrant (WEQ) Standards Manuals Relating to Abbreviations, Acronyms, and Definition of Terms, Open Access Same-Time Information Systems (OASIS), Coordinate Interchange, Area Control Error (ACE) Equation Special Cases, Manual Time Error Correction, Inadvertent Interchange Payback, Transmission Loading Relief (Eastern Interconnection), Standards of Conduct, Contracts, Gas / Electric Coordination, Public Key Infrastructure (PKI), WEQ/WGQ eTariff Related Standards, Measurement and Verification of Wholesale Electricity Demand Response, Specifications for Common Electricity Product and Pricing Definition, Specifications for Common Schedule Communication Mechanism for Energy Transactions, Specifications for Wholesale Standard Demand Response Signals, Customer Energy Usage Information Communication, Smart Grid Standards Data Elements Table, Measurement and Verification of Energy Efficiency Products, Electric Industry Registry (EIR), Modeling, Cybersecurity, Grid Services Supporting Wholesale Electric Interactions, Interpretations and any amendments or errata thereto, are protected by NAESB's federal copyright 1996-2023. NAESB hereby grants the authorized users who are NAESB members in good standing permission to reproduce material therein for internal reference and use and not for use by any unauthorized third parties. Reproduction in any other form, or for any other purpose, is forbidden without express permission of NAESB. Copies are available for purchase from NAESB. This non-exclusive limited license is non-transferable and may be revoked without notice upon violation of the terms contained herein or any applicable law or regulation. Each user grants NAESB the right to audit its use to assure compliance with these terms.
