PURPOSE OF SEMINAR

This course is designed to provide an overview of NAESB eTariff Business Practice Standards that apply to federally jurisdictional entities for the wholesale gas and electric markets and for oil pipelines. Students will be introduced to the definitions, standards and Appendix A - Implementation Guide for Electronic Tariff Filing. Students will learn how to implement the Electronic Tariff Filing in house and via third party solutions. Technology issues will also be addressed during the course.

The class will discuss the NAESB approved standards with respect to the electronic filing of tariffs and the procedures proposed by the Commission as outlined in the final rule, FERC Order No. 714, Rule-making Docket No. RM01-5-000.

WHO SHOULD ATTEND

This course is designed for those responsible for preparing and submitting tariffs, rate schedules and service agreements pursuant to Title 18 Code of Federal Regulations Parts 35, 154, 284, 300, 341 or Parts as required by FERC.

PREREQUISITE

Attendees are encouraged to familiarize themselves with the [NAESB report](#) regarding electronic tariff filings submitted to the FERC on April 15, 2008. They are invited to bring specific questions about standards to the workshop.

FORMAT

This course is composed of formal presentations, using handouts and slides, and open discussion. The standards and materials will be provided to the attendees on CD.

CONTENT

NAESB Process

Ms. McQuade, President and COO of NAESB will explain the NAESB process and procedures used to develop the eTariff standards, and will review the structure of the organization, its work products and participation in NAESB.

eTariff Standards

Presenter, Leigh Spangler is a NAESB Board Member, Co-Chair of the NAESB WGQ EDM Subcommittee and President of Latitude Technologies, a provider of technology services to the energy industry. Mr. Spangler will lead discussion and review of the NAESB standards related to electronic tariff filings. Mr. Spangler was a key contributor to the creation of the eTariff standards.

How to Implement the Electronic Tariff Filing

Mr. Spangler will describe the process and the various mechanisms, data tables, code values/reference tables, and technical specifications used in the submission of eTariff filings. Specifically the course will describe:

- The components of eTariff filings, including Tariff metadata
- The placement of these components into identifying information in an XML schema
- The compilation of these components and their accompanying tariff records into a filing package for electronic tariff filing at FERC
- The options available for implementation

Other workshops are scheduled for:

- New Orleans, LA
Monday, January 12, 2009
