NORTH AMERICAN ENERGY STANDARDS BOARD

NAESB PUBLIC KEY INFRASTRUCTURE (PKI) IMPLEMENTATION WEB CAST COURSE

This course is designed to provide an overview of the NAESB Public Key Infrastructure (PKI) standards and other related standards that were adopted by the Federal Energy Regulatory Commission (FERC) through FERC Order No. 676-H and ways your company may implement the standards in compliance with the Order. The Order requires that all jurisdictional entities using the Open Access Same-time Information System (OASIS) in the wholesale electric market use PKI security on those systems and adhere to the NAESB Wholesale Electric Quadrant (WEQ) Public Key Infrastructure Business Practice Standards (WEQ-012) and other related standards. The purpose of the web course is to highlight how the WEQ-012 and related standards work with the NAESB Accreditation Requirements for Authorized Certification Authorities Specification and the NAESB Accreditation Requirements for Authorized Certification Authorities for implementation:

FORMAT?

The course is an interactive web cast presentation.

WHEN?

Friday, January 16, 2015 – 10:00 am to 12:00 pm, Central Clock Time

WHO?

This course is open to all NAESB members and nonmembers. Those who are responsible for implementing standards are urged to attend.

HOW TO REGISTER?

The registration fee for NAESB members is $100; nonmembers $850 (includes WEQ-012 and related standards)

Register on the NAESB Primers and Training Courses web page located at:
https://www.naesb.org//materials/training.asp

For cancellations, a full refund will be issued to registered webinar participants who notify the NAESB Office (naesb@naesb.org) more than 3 business days in advance of the webinar, (by January 12, 2015).

For additional information or assistance in registering, please contact the NAESB office at (713) 356-0060 or naesb@naesb.org.
