NAESB Policy Concerning Communications with the Media or Press

Any external communication with a member of the media or press made as a representative of the North American Energy Standards Board (NAESB), or citing leadership roles within NAESB, must be approved by the NAESB Managing Committee prior to release or disclosure of the communication. This policy does not prohibit communications with the media or press made in any other capacity; however, members shall make clear that they are speaking for themselves or their organizations and that any NAESB office or position they might occupy is not relevant to the subject matter of the discussion. Failure to gain the approval of the NAESB Managing Committee prior to any release or disclosure to the media or press may result in the forfeiture of leadership positions within the organization.
