

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Standards for Business Practices and
Communication Protocols for Public Utilities

Docket No. RM05-5-020

NOTICE EXTENDING COMMENT PERIOD

(June 18, 2012)

On April 19, 2012, the Commission issued a Notice of Proposed Rulemaking seeking comments regarding the Commission's proposal to incorporate by reference certain business practice standards, pertaining to the measurement and verification of demand response and energy efficiency resources, adopted by the Wholesale Electric Quadrant of the North American Energy Standards Board (NAESB), 77 Fed. Reg. 24,427 (Apr. 24, 2012), 139 FERC ¶ 61,041 (2012). On June 15, 2012, NAESB filed a report, in Docket No. RM05-5-020, informing the Commission that it is in the process of changing the relevant energy efficiency business practice standards to remove references to the International Performance Measurement and Verification Protocol.

Upon consideration of these changes, the period for filing comments in this proceeding is extended to and including July 30, 2012.

Kimberly D. Bose,
Secretary.
